A Large Meeting of Iron Workers at Pittsburgh. to have been held yesterday afternoon in Colfax Hall, on Fifth Avenue, did not take place, owing to the fact that a room large enough to contain all the men could not be obtained. The sidewalks of the avenus were, for two hours or over, crowded with puddlers and heaters, numbering perhaps two thousand or more, and the unusually large concourse attracted considerable atenough to contain all the men could not two thousand or more, and the unusually large concourse attracted considerable at-tention and elicited no little comment from those who were ignorant of its object. Be-fore two o'clock Colfax Hall was densely fore two o'clock Colfax Hall was densely packed with men, the steps were crowded, and four or five hundred were unable to gain admittance. The floor of the room finally began to tremble under the great weight upon it, and created an approhension that it might give way. A gentleman suggested that as there was a feeling of insecurity in the Hall, and as it would not contain more than a fraction of those who wished to attend, that the meetthose who wished to attend, that the meeting adjourn. However, instead of adjourning just then it was organized by calling Mr. Corby to the chair. He said the wisest course would be to adjournently a larger hall could be secured. A committee of five was finally appointed to see if old City Hall could be secured, and upon inquiry it was learned that it could not, as it was then being cleaned for use in the evening. The throng being too great to admit of the transaction of any business the meeting adjourned to meet the call of the District Denuix which se who wished to attend, that the meetbusiness the meeting adjourned to meet at the call of the District Deputy, which

at the call of the District Deputy, which will probably be some time next week. The object of the gathering, as has been already stated, was to talk about the lock out, and it contemplated an open discussion of the question between the Union and non-Union men, but owing to a misatdiement to the effect that it was to be a mass meeting the District Deputy says that there were present hundreds of men who are not iron workers at all. The Soldiers Monument Project.

In the Sunday News of January 21th, I In the Sunday News of January 21th, I was pleased to read an article headed "Languishing Honors—That Soldiers Monument that is not Completed." This is indeed something worthy of resurrection. Why has it I ain dormant so long? Is it not the imperative duty of those who now enjoy the privileges of a free Republican Government to acknowledge this in a substantial way to the memory of those to whom we are indebted for it? True, those who have loved ones sacriis indeed something worthy of reasurestion. Why has it iain dormant so long? Let it not the imperative duty of those who now enjoy the privileges of a free Republican Government to acknowledge this in a substantial way to the memory of those to whom we are indebted for it? True, those who have loved ones sacrificed on the altar of their country need no monument of stone to endear their memory. But is it not obligatory on our new State to complete this noble project which was commenced with so much pomp and ceremony? Let us not be star behind our sister States and towns, whose soldiers' monuments can be counted by scores. Well may the little towns of Washington and Steubenville be proud of their monuments to their brave dead. As I understand the committee are in possession of a considerable fund for this purpose. Let there be more money rais. purpose. Let there be more money raised. Let us have a monument in the present generation. If there are no others to ent generation. If there are no others to push this matter lot the energetic ladies of our city assist the committee and be assured the monument will be completed. A WILLING WORKER.

de Ohio Railroad will agree to an increase of rates from Baltimore.

There is but little prospect of an increase in freight rates from the West to the East. The East bound freights are no longer regulated by New York, but by Baltimore, and as long as the Baltimore de Ohio maintains its present independent position there is no danger of higher rates than those charged at present.

advocacy of the project, from which we take the following oxtract:

My opionion is that a Narrow Gauge Road would be the best, say a 3 foot gauge, I have had several years experience in building and working Railroads, and I give it as my opinion that in the course of 10 years half the roads will be built three feet. First, grading only costs about two-thirds. Second, iron rails costs only one-half, and cross-ties two-thirds. There is one-half and one-third saved in purchasing ears and engines.—When the road is finished it will do all the work of a broad sauge. Coaches will seat 50 persons. finished it will do all the work of a broad gauge. Coaches will seat 50 persons. Freight cars will carry 14 to 16 thousand, while broad gauges carry 10 to 20 thousand. They make the same time. Now suppose you propose to old Harrison and Lewis counties that they subscribe one or two hundred thousand dollars each towards building a parrow gauge railroad. two hundred thousand dollars each towards building a narrow gauge railroad to Weston. Then let Upshur and Randolph come in and help build it on to Beverly, and in any opinion you will say in ten years that narrow gauge roads are the thing.

Cough is a symptom by which various diseased conditions of the throat, bronchial tubes and lungs manifest themselves. But whether it arises from the irritation produced in the throat and larynz by taking cold, from an attack of Bronchitis, from incipient Consumption, or from various other causes, nothing will allay it more speedily or cure it more permanently than Dr. Pierce's Golden Medical Discovery. It does not matter whether it be a recent attack, or a lingering cough, the Discovery is in either case equally well adapted for its relief and permanent cure. In fact, it will cure a cough in one-half the time necessary to cure it with any the time necessary to cure it with any other medicine, and it does it, not by dry other medicine, and it does it, not by drying it up, but by removing the cause, subduing the irritation, and healing the affected parts. No time should be lost in
commencing the use of a proper medicine
for the relief of a cough, for unless this
course is pursued, serious and dangerous
disease of the lungs is liable to result.
